HEATING SERVICE PLAN - Warm Air Systems

Coverage Begins	Basic Plan Coverage - - - - \$.....
Coverage Ends	Add Coverage - \$.....
Your coverage will be in effect with receipt of the coupon below and Payment for 12 months.	N. Y. Sales Tax - \$.....
	TOTAL - - - - \$.....

Our Oil Burner Service is offered for your convenience and comfort. It is a complete service, including preventive maintenance, emergency service and replacement of worn parts.

This plan will be considered null and void if all Fuel Oil is not purchased from us, or if our Budget or Regular Account credit terms are not adhered to. Service plans and renewals are payable in advance of effective dates.

BASIC COVERAGE INCLUDES:

- (1) Annual boiler and burner cleaning. This includes vacuum cleaning and brushing of unit, chimney base and smoke pipe.
- (2) Reasonably prompt around the clock service (October 1 to May 1 and during 8 A.M. to 5 P.M. otherwise). Other night service calls will be charged at prevailing rates.
- (3) Adjustment of flame for efficient combustion. Oil strainers cleaned and controls checked during cleaning/service visits.
- (4) Repair or replacement of essential burner parts and controls listed below as required.

Bellows	Cad Cell Relay	Emergency Switch	Nozzles	Thermostats (except clock type)
Blowtube	Control Wires	Fan and Limit Control	Oil Line Fittings	Transformers
Burner Fan	Coupling for Burner Motor	Fan Belts	Oil Tank Valves	Tubulator
Burner Motor	Delayed Action Valves	Firematic Valves	Oil Filter Cartridges	Wiring
Blower Motor	Electrodes	Fuel Pump	Pump Strainers	Blower Motor up to 1/3 Horsepower
Cad Cell Tube	End Cone	High Tension Wires		

EXTENDED COVERAGE:

Coverage for oil-fired hot water heaters is also available. For the additional sum of \$..... plus sales tax, we will extend the basic plan to include the hot water heater.

Section (4) above would then apply to your water heater.

Please review and understand that this plan is subject to the conditions on reverse side.

PLEASE CHECK THE FOLLOWING BEFORE TELEPHONING: Burner Switch, oil in tank, blown fuse, or circuit breaker off, thermostat not set high enough.
